TSUKUBA GEOENVIRONMENTAL SCIENCES

VOLUME 10

For the Academic Year 2013

December 26, 2014

UNIVERSITY OF TSUKUBA

Doctoral Program in Geoenvironmental Sciences
Graduate School of Life and Environmental Sciences

TSUKUBA GEOENVIRONMENTAL SCIENCES

Volume 10, December 2014

For the Academic Year 2013

CONTENTS

Preface	1
Original Paper	
Estoque, R. C., Murayama, Y., Kamusoko, C. and Yamashita, A	
Geospatial analysis of urban landscape patterns in three major cities of Southeast Asia	3
Isono, T. Regional characteristics of a kleingarten in Saku City, Nagano Prefecture	11
Zhou, W. Development and characteristics of the Japanese enclave in Pudong New Area of Shanghai	21
Research Report	
Greger, K. and Murayama, Y. Measuring mobility and urban structure:	
A case study of four capital cities in Asia	33
Yamashita, A. Aspects of water environmental issues in Jakarta due to its rapid urbanization	43
Lwin, K. K., Murayama, Y. and Hashimoto, M. Experimental study on smart tracking	
and geo-event data warehousing system for person trip surveying	51
Organization and Activities of the Doctoral Program in Geoenvironmental Sciences	
for the Academic Year 2013	57
List of Publications	67
Instructions for Contributors	75

Front cover image

Overview of the Saku Kleingarten Mochizuki (2013). See for the details the paper by Isono (pp. 11 – 19)
